

# U.S. Retail Affiliate Marketing Sales Index

Updated through August 31<sup>st</sup>, 2025

# Introduction

In developing the U.S. Retail Affiliate Marketing Sales Index we measured the gross merchandise sales directly attributable to affiliate marketing promotions for the period beginning January 1<sup>st</sup> through December 31<sup>st</sup> and compared them against the affiliate gross merchandise sales for the same period in 2024.

We analyzed performance in 10 retail categories comprised of ~700 retail brands as tracked in the platform. Additionally, commission trends, publisher activity and customer behavior were also examined.

The U.S. Retail Affiliate Marketing Sales Index data is not intended as a proxy for overall affiliate marketing activity, e-commerce activity overall, or the performance of any individual business, including Partnerize. On a periodic basis, we review and update our same store flag methodology as new stores join the platform. On June 20th, 2021, we updated our same store logic to more closely reflect trend activity. Periodic normalization to account for data anomalies may also occur.
